Charles Mackay.

The above named gentleman whose literary fame as chief editor of the LITERARY DIGEST, London News has spread widely throughout the whole civilized world arrived in this country on the 3d inst., by the steamer "Asia" from Liverpool.

Mr. Mackay's visit to our shores was not unexpected as his purpose was vaguely hinted at several months ago by some of the English Literary Journals. He is one of the most vigorous and popular of modern British Lyric writers and his fame has long preceded his advent amongst us. Indeed wherever the English tongue is spoken the songs of Charles Mackay have thrilled all hearts and made his name a household word.

He has been the chief editor of the News since 1848 and during his stay of several months in this country he proposes to write a series of letters for that Journal giving his impressions of whatever happens to strike his attention in the habits, taste, and customs of our people, the practical working of our laws and institutions and the beauty of our Mountain, Lake and forest scenery. In doing this with the truth and large heartedness which characterizes his writings he will not only interest the readers of that Journal, but will also perform a true service to kindred nations by making them better known to each other.

Another object of Mr. Mackay's visit to our country is to deliver a course of popular lectures in the chief cities of the Union on the subject—"Songs, Historical, Popular and National." This is a novel and wide theme capable of great variety in illustration and peculiarly adapted to Mr. M.'s talents, who will make them not only entertaining but highly instructive.

Mr. Mackay has delivered three lectures in Boston which have been listened to by crowded and appreciative audiences and commented on extensively and flatteringly by the press not only in that city but throughout the country and it is not only with pleasure but with a spark of pride that we announce that the Committee of the Aquidneck course of Lectures have succeeded in securing him to pass with us a genuine old fashioned New England Thanksgiving on Thursday next and in the evening deliver one of those brilliant, sparkling and witty lectures of his, which are creating so much attention throughout the whole country.

We clip the following from Frank Leslie's Illustrated Newspaper.

The poetical works of Mr. Mackay appeared in the following order:—"Hope of the World," 1839; "The Salamander," 1842; "Legends of the Isles," 1844; "Voices from the Crowd," 1846; "Voices from the Mountains," 1847; "Down Lyrics," 1848; "Elegiacs," 1850; "The Lullaby of Gold," 1856; "Songs for Music," a collection of the fugitive songs published at intervals from 1845 to 1850; "Under Green Leaves," 1857. Among his prose works, the most important are: "Longhair, Lord of London," a romance in three volumes, published in 1842; and "Memoirs of Extraordinary Popular Delusions," three volumes, 1843.

As a poet, Charles Mackay is distinguished by an exquisite smoothness and flow of versification, and a wonderful command over the contrasts of rhythm. His fancy is at once refined and graceful, and hopeful, and manly. His poems arrest the attention of the scholar, and reach the heart of the million; he flings over his pages images of rare beauty, upon which the intellectual banquet with delight; and speaks words of common-place truth to the mass in a spirit of gentle admonition, mingled with a large-hearted sympathy, which the people read in their homes, and gain therefrom courage and consolation, and a sentiment of brotherhood with all. It is a rare and noble gift to be able to speak to a whole people in a language they can understand, and to know that the great heart of a nation throbs to the beat of your heart, and responds to and echoes your sentiments. So Beranger spoke to the French people, and so speaks Mackay to all who speak the language of Shakespeare. Gerald Massey has addressed the people, and they have heard him; but his voice is not as the voice of a prophet, for he sets class against class, and breathes words of ire and scorn against one, while he lavishes a morbid sympathy upon the other. Charles Mackay has addressed the people also, but while he sympathizes with their hardships and social wrongs, his words breathe consolation, and brotherhood, and broad humanity, upholding the dignity of labor, and infusing hope into the manifold struggles with a destiny which is never too hard to bear, if met with a cheerful, trusting spirit.

The safe arrival home of Hon. Charles Sumner, and his comparatively improved state of health will rejoice the hearts of thousands. We hope he will be able to appear in his place at the opening of Congress.

The news from Europe, per Niagara, left New York Thursday forenoon at eleven o'clock, and was received in New Orleans at five minutes past ten.

TAUNTON.—The citizens of Taunton held a meeting on Tuesday with reference to the subject of the selection of a committee having authority to meet all drafts of the selection for that purpose.

LOCAL NEWS.

We alluded some week or two ago to the improvements which were being made and are now nearly completed on the "Friends Meeting House," and we perceive that the "Mercury" of last Saturday, contains quite an extended "leader" on the same subject from which we clip the following:—

"The Meeting House we refer to was one of the plainest, unattractive, we might almost say repulsive, structures that one could find in a day's travel, even by rail; it was a building composed of four blank walls, pierced with numerous windows (the upper ones pushed up till the roof rested upon the frames), and unrelieved by jet, trimmings of any kind, or, in fact, in any way; but all was barren, formal and unattractive. Now, one who has not given his attention to the subject could not have supposed that any alteration could be made in it that would make it more agreeable to the eye, and yet this has been done, without destroying the simplicity, nay, even plainness, that always characterized the place set apart for worship by the Society of Friends."

We can hardly agree that the Meeting House, plain as it was before the present alterations were made was the worst looking building to be found in a days travel, altho its present appearance is undoubtedly much more agreeable to the eye, still we shall ever remember with pleasure the neat, plain, and somewhat awkward looking structure which formerly looked gravely down on Quaker green like a symbol of a departed age.

The Anniversary Concert of the Musical Institute, on Friday evening, was well attended, and the music we learn gave very general satisfaction. The Address from Col. Van Zandt, was an interesting feature and went off well. We hope the society have been fortunate in their receipts and that they will be able to dispense a goodly sum to the poor and needy, after having paid all their own necessary expenses.

If any of our merchants or other persons doubt the advantages of advertising in these "hard times," let them insert a line in the News like "Man Wanted" or "Woman Wanted" to work at reasonable terms during the present "winter," and if they are not satisfied in less than a day that advertising pays doubly and triply we will forfeit our "old quill."

We have had a real touch of "Old Winter" during the last few days much to the discomfort of "Editors," "Printers" and other poor D—s who have not been able to collect enough of their dues to buy the necessary articles of clothing for the coming inclement season. Don't forget us these "Hard Times."

Dr. Wood has kindly handed in the following Musical publications of Oliver Ditson & Co. They can be found in the City Music Store.

"The Western Bell," a collection of glees, quartets and choruses by Edward A. Parkin and Frederick H. Pease. It contains many pieces that are familiar to all, besides a number of songs that have been composed especially for this work. We think it a very good collection.

"Continental Harmony." Is a collection of the most celebrated piano tunes, anthems, and miscellaneous pieces; designed particularly for old folks concerts.

"Romance de la Traviata," by H. Goldbeck; is a transcription from one of Verdi's favorite airs.

"The Luisa Polka," by W. J. Thayer; it is arranged for one or two performers, we think it prettier than a duet.

"The Gleaner's Quickstep," by Edward Ambuhl, is very good.

"The Marine Medlowe," is a beautiful piece composed and dedicated to the brave Capt. Hiram Burt, of the brig Marine, who rescued from a watery grave a large number of the passengers of the "Central America." It has a fine lithographic view of the Marine going to the assistance of the foundering vessel.

"At Parting," a song for mixed voices, by Robert Franz, it is pretty and not at all difficult.

In one of the smaller cities of Massachusetts, the colored population held meetings to discuss the propriety of celebrating the anniversary of West Indian Emancipation, August 1st. At one of these meetings, a very conservative gentleman was much surprised to see some of the "fair sex" rising and taking part in the discussion. After two or three of the sisters had "need bad names" on matters under debate, he sprung up in a greatly excited state, and addressed the audience:—

"Feller citizens! Ef I'd a spouse' at de ludees would be p'inted to take part in dese 'seasion'—(sensation)—of I'd a nide 'at de ludees out june in dese yere debate'—(all eyes turned on the speaker)—'at I'd a believed yore one moment, feller citizens, 'at de female sect would dar to raise der voice in dese meatin' I'd—feller citizens—' (Wot! wot! wot! you'd a did, of you'd noded it? shouted two or three of the strong minded sisters, as the whites at their eyes flashed, on the speaker.) I (scratching his wool, I'd a bring my wife along wid me.)—here de dissonant orator 'cropped into his seat, completely exhausted.

A bottle was recently washed ashore in England with the following written on the leaf of a memorandum book—"Lat. 43, 26, long. 37, 12; ship Washington, of New York, caught in a hurricane, abandoned, crew and officers, 68 in all, taking to the boats. God help and pity us all, Amen."

A bottle was recently washed ashore in England with the following written on the leaf of a memorandum book—"Lat. 43, 26, long. 37, 12; ship Washington, of New York, caught in a hurricane, abandoned, crew and officers, 68 in all, taking to the boats. God help and pity us all, Amen."

GENERAL NEWS.

THE SHADOWS OF AN AWFUL WINTER.—The following eloquent extract is taken from a discourse lately delivered by Rev. E. H. Chapin, to his congregation in New York:

It is not the ruined merchant, merely—it is not the spectacle of depreciated property and lost credit, and the manifold discomforts of usual bankruptcy—that most makes us shudder and grow sad. Around the gloomy shadow there is still a darker rim. Away down below the platform of financial transactions there looms a sea of faces—the faces of working men and working women, looking up among the stopped machinery of the factories, and the silence of ship-yards, and all the desolations of suspended labor; looking up to the shadows of an awful winter overcasting them. Men and brethren, what shall we do for those whose hard earned dollars are not merely honor and credit, but bread and blood and life itself? What shall we do for the poorest of babes, that must soon hang on the wretched breasts of famine, and for the women, for whom we must say something more than "God help them"? Ah, yes, a financial crisis is a matter of tears and shuddering, as well as for arithmetic and rumor.

Nothing is so hard to women (says Chas. Reade), as a long, steady struggle. In matters physical, this is the thing the muscles of the fair cannot stand. In matters intellectual and moral, the long strain it is that beats them dead. Do not look for a Baccha, a Newton, a Handel, a Victoria. Some American ladies tell us education has stopped the growth of these.—No! mesdames. These are not in nature. They can bubble letters in ten minutes that you could no more deliver to order in ten days than a river can play like a fountain. They can sparkle gems of stories; they can flash like diamonds of poems. The entire troupe has never produced one opera, nor one epic that man could tolerate a minute; and why?—these come by long, high strung labor. But weak as they are in the long run of everything but affections (and there they are giants), they are all overpowering while their gallop lasts. Frigida shall dance any two of you flat on the floor before four o'clock, and then dance on till peep of day. You trundle off to your business as usual, and could dance again the next night and so on through countless ages. She who danced you into nothing is in bed, a human jelly crowned with headache.

THE WOODMAN CASE ON MORE.—O. O. Woodman publishes a card in the New Orleans Delta, sustaining the statements of his wife's affidavit against Furniss. He declares the letters purporting to have been written by her to Furniss to have been utter forgeries, or prepared by Furniss and copied by her. He says he placed her in the lunatic asylum in 1874, and that she might be treated for the derangement of her nerves caused by taking laudanum, and that he had previously arranged with her brother to come on and take her home. For Furniss he expresses a contempt and hatred justified by the circumstances, and says: "Had my aim been more successful at New York his death would have been a just retribution and a public blessing; but the greatest punishment to such a wretch is to have gained safety by flight, and to remain through life an object of contempt and aversion among all those who scorn depravity."

A Quaker lady of Philadelphia, who had frequently given money to a little girl who said her father was sick and not expected to live, was recently called on by the child, who wore a countenance more wan and sorrow-stricken than before, to tell her benefactress that her father was dead. The generous lady gave her \$10, and went among her friends and collected \$8 more for her, and then went with her to her wretched abode, where she found the family wailing their hands and uttering loud lamentations over the body of a man which lay in a coffin. On returning for her purse a few moments later, what was her surprise and horror, on entering the room, to perceive "the corpse sitting upright in its shroud, eagerly counting the profits."

A GREAT DAM.—The New Haven Palladium has a description of a mammoth dam now in process of construction in the neighborhood of that city. The breadth of the base is thirty-one feet. It will be thirty feet high, and four hundred feet long, with a water-way of one hundred and fifty feet. The overflow forming the lake will cover two hundred acres of land, and extend back between two and three miles. A large number of houses on the river banks will have to be removed in consequence. Many of the rocks composing the structure weigh over four tons each. The dam will be used for manufacturing purposes for the present, but is built with reference to the contemplated introduction of the water into the city of New Haven.

STARTING UP.—The Metacomet cotton mill resumed operations on Monday. For the present it will run 7 hours per day, starting at 8 A. M., and closing at 4 P. M., with one hour for dinner. This is the largest cotton mill in the city, running over 21,000 spindles, and employing nearly 300 operatives, and its starting even on short time, will afford a great deal of relief to the distress in our midst.

The Pocasset mill is still running. This mill employs nearly as large a number of hands as the Metacomet.—Fall River News.

THE PROFITS OF PUBLIC PRINTING.—The Washington correspondent of the Tribune says it is now understood that George Platt will supercede Mr. Seaman as superintendent of the public printing, at the opening of Congress. Platt has taken Col. Forney's residence, and Seaman will it is presumed, retire with \$100,000, after five years' service upon a salary of \$24,500.

THE "HARD TIMES."—A correspondent at Shelburne Falls writes to the Greenfield Gazette: "No news—times are as bad here—factories stopped—bank discount—nobody pays anything—peasant stands bankrupt—children got the mumps—hens stopped laying—cows have dried up—and all nature is in a state of general suspension."

WALL STREET ALIVE AGAIN.—The stock-jobbers of Wall street, New York, are getting crazy again. Stocks are getting up like rockets, and speculators are making money as fast as lightning. It is said that had a dozen of these adventurers have each made \$100,000 in differences in the last week, the good time is coming again.

THE UNEMPLOYED WORKINGMEN.—The demonstrations have almost entirely ceased, both at Tompkins Square and in the Park. About a hundred congregated at the former place yesterday morning, some playing ball, and others talking over Madame Ronke's scheme of raising the wind by Concerts given in her new Harmony Hall, which is to cost only \$300,000! Half the profits realized she promised to give to the poor, and keep the other half herself. She waited on the Mayor yesterday to lay her plans before him. Large numbers of the working men went up to the Central Park to look after a job, but with no success. The Central Commissioners have not yet met to fix upon the day when their work shall be commenced.—N. Y. Courier & Enquirer.

THE PLANET URANUS.—The planet Uranus affords one of the most marvellous illustrations of the vastness of the astral system and of the advancement of modern astronomical science. Though not visible to the naked eye, requiring a certain degree of magnifying power to render it visible as a very small star, it is no less than 35,000 miles in diameter, or more than thirty times the size of our globe. Its distance from the sun is no less than eighteen hundred millions of miles. To reach the nearest point of its orbit, a cannon ball, flying from the earth in that direction at the rate of five hundred miles an hour, would require a period of three hundred and ninety years. It moves round the sun in the space of eighty-four years, in an orbit eleven thousand millions of miles in circumference.

It is a very common thing to abuse lawyers. Briefless lawyers, however, should always be excepted. It is wrong to speak ill of a man "without a cause."

THE HEIGHT OF ABSURDITY.—The New York banks remaining in a state of dishonor and suspension with nearly \$20,000,000 of specie in their vaults.

No one should hesitate to pay the printer his dues. No class of men work more diligently, and to withhold it when due, is a sin which no honest man should be guilty of.

USE THE AMERICAN VEGETABLE HAIR CURLING COMPOUND.

For Curling and Beautifying the Hair and Whiskers.

ALL who wish to improve the health and growth of the Hair and Whiskers, should not be without this compound. It has been fully tested to be the best article now in use. It gives a black and glossy appearance, and after the first application, will curl the hair in beautiful ringlets.

For gentlemen's Whiskers, nothing can be better for curling and making them thick and glossy. As this article is purely vegetable, it will not injure the hair, but will remove the unwholesome dryness and harshness of the hair, which, recedes its loss, and will increase its growth and give it a healthy and luxuriant brilliancy.

Many are the testimonials in its favor, and cannot be tried to be appreciated. Those wishing a beautiful head of hair, can have it by using the Curling Compound which is put up in a nice box, richly labeled on four sides.—Price \$1.

For the Skin and Complexion, use Dr. Le BAKON'S Lily Cream. This article is composed of the most soothing substances known in the Vegetable Kingdom, and as it contains no poisons or injurious materials, it can be used at all times and with entire safety, even upon the most delicate skin. Price only 25 cents and 50 cts. per bottle.

DEAD! DEAD! DEAD!—Ye afflicted read the following Certificate of cure of over 20 years' standing:

H. T. HELMHOFF.—Dear Sir:—I have been troubled with an enlargement of the Bladder and Kidneys for over twenty years. I have tried physicians in vain, and at last concluded to give your genuine preparation a trial, as I had heard it highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects and feel much better than I have for twenty years previous. I have the greatest faith in its virtues and curative powers, and shall do all in my power to make it known to the afflicted. Having this medicine so advantageous to you in assisting you to introduce the medicine, I am truly yours, H. T. HELMHOFF.

Should any doubt Mr. McCormick's statement, he refers to the following gentlemen.

Hon. Thos. H. Florence, Philadelphia.

Hon. J. C. Knox, Judge, Tioga Co., Pa.

Hon. J. S. Black, Judge, Philadelphia.

Hon. D. R. Porter, ex-Governor, Pennsylvania.

Hon. Ellis Lewis, Judge, Philadelphia.

ALPINE HAIR BALM.

Restoring Gray Hair to its Original Color. Warranted to cure Baldness, Scurf, Dandruff, itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the hair, which passes through the hair and gives a natural color without the use of Hair Dye.

It keeps the hair from falling off.

Mr. Mason, Sir:—I have found a Hair Restorative in your Alpine Balm, which has not merely changed the gray locks for their original, but has given them a glossy hue, which before they never had.

JEREMIAH S. ROSS, 129 Wickenden street, Providence, May 30, 1887.

Providence, July 30, 1887.

C. A. P. Mason, Dear Sir:—I am now using the Alpine Hair Balm, which I had of you, with most happy results. On the 30th of June last, my hair (which had been gray for more than six years) was fast falling off, but on the third application of the Balm it ceased falling, and is now firmly rooted, and very nearly its original color. By the use of one bottle, I confidently expect a complete, permanent, luxuriant and original head of hair. If every gray haired skeptic would try it, they could only become "living epistles, known and read of all men," as having used the Alpine Hair Balm. Yours, &c.

JOHN F. TRESCOTT, 227 Westminster Street, Providence.

TESTIMONY OF A LADY OVER 50 YEARS OF AGE.

Mr. Mason, Sir:—I write to inform you how pleased I am with your Alpine Hair Balm. My hair has been gray for a number of years, and I have been expected to wear a head piece and cap; but have always found a difficulty when having a bonnet on to keep the front piece from working back and showing the white hair. Finally I concluded I would try your Alpine Hair Balm; I used one bottle only and my hair has come back to its natural color, which was brown. My hair is now perfectly free from dandruff and is soft and glossy.

Very respectfully, SARAH LYON.

HEALTHY BREAD.

DIETETIC SALERATUS.

IS among the most important improvement of the present day. Every family who uses this food, should be acquainted with its intrinsic value, and thereby escape the many evils arising from the use of common Saleratus—the caustic impurities of which are acknowledged destructive to health, by physicians generally. Common saleratus has the elements of caustic alkali, and readily acts on the coating of the stomach, thus deranging the digestive organs and paving the way for Dyspepsia and diseases of every kind. Children are the greatest sufferers and frequently die from infantile diseases, which in former years, were successfully treated, even without medical aid. But here is an article to be relied on.

James Pyle's Dietetic Saleratus, the result of many experiments, is entirely different from everything heretofore in use. The perfection reached in purifying it, makes it as harmless to the stomach as flour itself, while in point of purity it surpasses the best baking soda, and will make bread, biscuit and cake, beautifully light, nutritious, and suitable for the most dyspeptic stomach. Every lady that tries it will use no other.

Beware of Counterfeits.—Our great success has brought out a multitude of poisonous imitations. The genuine is packed in whole, half, and quarter packages, with the name of James Pyle on each. Manufacturing Depot, 313 Washington st., New York.

For sale at all the groceries in Newport, Providence and throughout the State.

BY TELEGRAPH

TO THE NEWPORT DAILY NEWS.

THE STORM IN THE WEST.

Buffalo, Nov. 21.—The storm yesterday and last night was very severe. The amount of snow which fell was not much but it drifted badly. The track of the Buffalo and Niagara Falls Railroad between Buffalo and Black Rock was so washed by the waves from the lakes that trains cannot pass. Seven wires of the Morse and Montreal telegraph lines on the above Road have been completely swept away. The tracks of the New York Central and Lake Shore Railroads are not obstructed by snow, and the trains are running regularly.

St. Catharines, C. W. Nov. 21.—Snow fell here last night to the depth of eighteen inches. The passenger trains on the Great Western Railway got through, but only at a very late hour. The freight trains stuck in the drifts.

INTEREST OF THE STATE DEBT.

From the Providence Daily Tribune.
Rosa Contreras, Don Juan's Rose
Compound for the hair, is recommended for cleaning
the human hair, giving the hair a rich
silk and lustrous appearance; rendering it
soft, preventing baldness, keeping the hair
from falling out, and giving it a fine
and healthy growth. It is also a good
remedy for the scalp, and for the hair
and the hair, which are the delight of the
ladies, the picture of youth, and the joy of
old age. Sole proprietor, John G. Hazard,
No. 135 Broad street, Providence.
CAUTION TO LADIES.—A lady residing
in Standard, Conn., was very severely
burned on Friday evening last. She
had been applying to her hair a mixture of
castor oil and alcohol, and approaching too
near a lighted lamp her head became enve-
loped in a flame, and the flame was not extin-
guished until the lady was so severely burned
that she is in a critical condition. —Wash-
ington Patriot, Oct. 21th.

Don Juan's Rose Compound is the only safe,
elegant and truly efficacious Hair Preparation
sold, and is winning "golden opinions"
from all classes of people. (See pamphlet.)
It is warranted to contain no alcohol, grease,
sugar of lead or the sulphur which will destroy
the hair in every instance where restoration is
possible by any means, and preserve it in a
healthy, luxuriant condition. In bottles at
25 cents, 50 cents and 75 cents. Who, then,
will use indelible, greasy and poisonous
compounds, when the real desideratum can be
procured at so small expense?

SPANISH GOLDEN MIXTURE.
FOR FEVERS.
THIS elegant vegetable compound has long
been used by the Spanish Indians, for regu-
lating the derangements of the female system,
and for improving the general health, and
beautifying the complexion. It is a warm-
ing, stimulating and tonic, and quick-
ening and purifying the blood, and giving
circulation, imparting color to the lips and
cheeks, and inducing to the eyes, and a clearness
and freshness to the complexion not attain-
able by any other means.
It is a Female Medicine it has no equal.
It will remove female obstructions when all
other remedies have failed, and a few doses
taken for one week before the monthly period
will prevent all obstructions from any cause
whatever. This may seem incredible, but try it.
It is sold in any case the price will be re-
funded. Sent 40c any part of the country.
Price \$3.00 per bottle.
Sold by AMON PALMER, M. D., Chemist
and Apothecary, Corner to Andrew Sam-
uel, No. 45 West 72nd street, New York.

A CARD TO THE LADIES.
Dr. Druggist's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting irregularity, and removing all obstruction from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many complaints among young females. Headache, fainting, the Stomach, Palpitation of the Heart, Distention of Food, and Disturbed Sleep, do most ways arise from the interruption of nature; and whenever that is the case, the Pills invariably remedy all these evils; and many a female has been successfully cured by them. Price \$1 per box. For sale at 129 Thames Street, corner Church Street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies by enclosing a note to **STURGES & CO.** No. 801, New York Post Office, can have the Pills sent (freight paid) by mail to any part of the country. 129

CHARLES RUSSELL, JR.
AMERICAN AND FOREIGN OFFICE.

R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1857.)
NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents of Inventions;—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by returning One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patent granted in the United States and Europe, render him also, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.
During the time I occupied the office of Commissioner of Patents, H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons calling in that capacity, and I had much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.
From the present Commissioner.

August 17th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

J. RUSSELL SPALDING'S
ROSEMARY

This great and popular preparation is decidedly the most and best articles in the world for the hair.

It imparts a richness and brilliancy, cleanses ornaments, invigorates, embelishes, removes dandruff, relieves headache, and has probably been used for restoring and preventing the falling off of the hair with as much success as any article ever known. It has stood the test of time and use, and all rely upon it.

Sole Proprietor, **J. RUSSELL SPALDING**, Manufacturing Chemist, Principal Depot, 27 Tremont St., opposite the Museum, Boston, Mass., where all orders should be addressed. The fac-simile of his signature is on every bottle of the genuine. 123—1ly

LOTTERIES.

GEORGIA LOTTERIES.
THE Lotteries of **ANDERSON & SON**, are chartered by the State of Georgia, and have sworn commissioners appointed by the State, to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner, and that the interests of the parties who reside at a distance are as well protected as if they themselves were present at the drawings. Another fact which the managers call attention to is, that all persons have a legal right to send orders for tickets to Georgia, as lotteries are legalized by a special law in that State. A lottery is drawn at Savannah, Ga., about the 15th of every month, and another is drawn at Macon, Ga., every Saturday throughout the year.

As each ticket has a number, orders are filed by the first drawing (which place after the communication comes to hand. The prizes of tickets are from \$1 to \$10. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket and are so simple that none can fail to understand them. There is no combination of numbers, which has so mystified the community for years past. Prizes vary in amount from \$10 to \$5000. Every prize being drawn, and result of drawing or other information, forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers: New Orleans Delta, Savannah News, New York Dispatch, and New York Atlas. Write your address plainly, and direct to **ANDERSON & SON, MANAGERS,** Macon or Savannah, Ga.

Prizes are paid in full—no percentage deducted from prizes, as in other lotteries. All communications are strictly confidential.

LOTTERIES.—The well known Maryland Consolidated Lotteries, of which **J. Francis & Co.** are the managers, are chartered by the State of Maryland, and the same are superintended by a committee of gentlemen, and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that State. A lottery is drawn every day in the month. In particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prizes of tickets vary from \$1.00 to \$20.00. No tickets however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from \$20 to 1000,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

T. HUBBARD & Co. No. 39 Fayette st., or Box No. 40, Baltimore Maryland.

The Drawn Numbers of the Maryland Lotteries are published by the State Commissioner in the following Papers, viz. Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D. C.

LOTTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filed in the drawing next to take place after the same comes to hand. According to the scheme on ticket in every ten men draw a prize. Tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from \$20 to \$50,000; every prize being drawn and result of drawing forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers: New Orleans Delta, Mobile Register, Charleston Herald, Norfolk Gazette, Atlanta Intelligencer, and New York Weekly Telegraph. Write your address plainly, and direct to **S. SWAN & Co., MANAGERS,** Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries. All communications strictly confidential.

KEEP COOL!
W. F. Shaw's PATENT GAS HEATING AND GAS COOKING STOVES.

THE only true principle whereby all unpleasant and injurious odors are avoided. The apparatus is warranted to cook the food for a family at one half the cost of doing the same by any other gas stove ever offered to the public.

Secured by 3 American, 1 English and 1 French letters patent. Invented and patented by **W. F. SHAW.**

The First Premium and ONLY GOLD MEDAL ever awarded on GAS STOVES by the Massachusetts Charitable Association, was awarded to **W. F. SHAW**, who has also received a medal from the American Institute, N. Y.

These are the only desirable inventions for cooking or heating by gas ever offered to the public, and are the results of upwards of seven years' experiments and experience of the inventor and patentee.

W. F. Shaw's Patent Gas Stove, or Gas Heater, for boiling small quantities of water by being placed over any gas burner.

The undersigned having received the Agency for the sale of the above Stoves, offers them to the public as the very best article yet manufactured for cooking or heating by gas. They are economical and free from odor of any kind in operation, bake bread and meats superior to coal ovens, and should have a place in every household.

Satisfactory references from reliable parties using them in this city, can be had upon application to any office, where the public are invited to call and examine the articles.
